

PRODOTTI PER
ORTOFLORICOLTURE

LA NOSTRA STORIA...

“Da azienda familiare a punto di riferimento per il settore.”

Gema nasce dall'iniziativa di Guido e Maria Rondelli come realtà specializzata nello stampaggio plastico. Con il tempo, l'esperienza produttiva si orienta progressivamente verso il settore dell'ortofloricoltura: nel 1992 prende avvio la produzione dei vasi in plastica e, dal 2002, allo stampaggio a iniezione si affianca la termoformatura, ampliando l'offerta con vassoi e contenitori tecnici.

Anno dopo anno, la gamma si è ampliata con un obiettivo chiaro: garantire prodotti affidabili, sempre disponibili e capaci di rispondere alle esigenze di vivaisti, floricoltori, garden center e professionisti del verde.

Con sede produttiva in Piemonte, magazzino in Liguria, depositi nelle principali aree commerciali e una rete di rappresentanti attiva sul territorio, Gema Vasi assicura presenza costante, continuità di fornitura e un supporto diretto e concreto ai propri clienti.

Dal 2012, la collaborazione con Soparco azienda francese specializzata in prodotti termoformati permette di completare ulteriormente l'assortimento, offrendo soluzioni sempre disponibili o approvvigionabili in tempi rapidi.
